

MCNC 2018 Teams Listing:

Dear MCNC Members,

I know you have all been waiting for the release of this year's Divisional teams – so here they are!!

Before you find out which teams your girls are in, could I please ask that you read this message to the end so that you understand the process that has been followed and the factors considered to develop these teams.

The teams have been developed using the grading process provided a couple of weeks ago, which is available on the club website at:

https://www.mountaincreeknetball.org/web/images/pdfs/2018_Grading/MCNC_Grading_Process-2018.pdf

One of our primary aims this year was to try to keep the nucleus of teams together, where possible. In some cases, this was possible, in others not, due to one or many of the factors/considerations listed below.

We have tried to put together teams that we believe are competitive and comprise players of a similar ability/skill level. It should be noted that the **club grades players** and puts together teams. **SCNA will grade teams** to see where they fit into the competition – the club does not select which division a given team will play in.

The teams were developed using the following inputs:

1. Coaches reports from last year (returning players only),
2. Parent/Player feedback forms (not everyone completed one of these), and
3. Grading Notes from the two weeks of grading (where your daughter attended)

NOTE: Grading this year was run over 2 weeks to provide graders the opportunity to see more of the girls and how they have developed over the off season – Last year we only had one week of grading!

In developing the teams several factors were taken into consideration or affected our ability to develop the teams:

- The satisfaction of players and the desire to have fun while playing netball!!!
- Ability / Skill level (Our System is a skills-based grading system),
- Players age,
- School year of the player,
- No of years they have been playing netball (experience),
- Player development rates (some kids progress quicker or slower than others and therefore can't stay in old team),
- Lack of adequate Coaches comments or inconsistent Coaches comments,
- Incorrect or confusing registration information (Playing positions listed during registration did not correlate with Coaches comments or feedback forms, Incorrect Divisions quoted, School year levels incorrect, etc...),
- Some girls were not able to attend their allocated grading sessions (This makes it difficult to determine their current skill level),
- Addition of new players (some of which have been from other associations / clubs or interstate),
- Loss of players at the older end of the competition due to player's interests changing or work commitments. We lost over 25 players at the top end of our divisional teams.

- Other players who have left netball or the club,
- Playing Positions (Attacker, Mid Court, or Defender) – Some players can only play one position! This limits our flexibility in moving players between teams,
- Team Training requirements (e.g. Primary grade 6 finish before High School grade 7's and trying to make it easier for the coaches and allocation of training court time),
- Team Numbers (we have tried to limit the number of teams with 10 players this year. Our preference is that teams should have a maximum of 9 players. This has been done to try and give girls more opportunity to play, as teams with 10 players meant 3 girls were not playing or needed to be rotated each week).
- Late registrations (and inability to assess skill level/ability as they missed grading – we had many people who registered after the registration closing date – this caused a great number of problems with trying to determine the make of teams), and
- Parents/Players wishes/desires.

In most cases, we have been able to meet peoples wishes, but in some cases this was not possible due to one or a number of the above factors. The graders have put in a lot of work over the last two weeks to determine these teams taking into consideration all the above factors and have tried to accommodate everyone, but not everyone will get all of what they want. I ask that you try to understand the complexity and difficulty of developing these teams and trying to meet all of your needs/desires.

All of the above being said, if you have genuine concerns please email me so that we can discuss and explain our decision-making process. You should understand that one small change often has ripple effects into other teams and will most likely affect other players and cannot be made in isolation.

I want to make it very clear that the teams have been developed and reviewed by the whole MCNC Committee. Each committee member has reviewed the draft team composition and, in some cases, suggested changes to teams to take into account the above considerations or factors were made. Many of the committee members have first-hand knowledge of the girls and their abilities, as they have been team coaches or managers in the past.

I would also like to say a huge thank-you to our Grading team who have spent many, many hours setting up the grading teams, conducting grading, reviewing grading notes, and pulling together the draft team lists for the committee to review – On behalf of all Club Members thank-you to everyone who contributed for a huge effort!!! We very much appreciate your commitment to our club.

Finally, I would like to welcome all our new members to the club, we hope your 2018 netball experience at our club is a positive one, thank-you for choosing MCNC. To all our returning members - Welcome back! We hope you also enjoy the next step in your Netball journey with MCNC!!

If there is ever anything you would like to discuss or raise, please don't hesitate to contact me or a committee member.

The 2018 Divisional team lists can be found below.

P.S. If you would like to Coach or Manage a team this year please contact the club by return email.

Yours in Sport,

Steve Curnow - Club President

Remember its “Positive or its Pointless”
